

EBP

BUILDING PRODUCTS

Specialists in Supply Solutions

**QUALITY &
SERVICE
WHERE IT
MATTERS**

Our Value Proposition sets us apart from our competitors.

Established in 1929 and formerly trading as Ensor Building Products Ltd, 2017 heralded a change of name and trading style following a successful MBO and change in ownership at the end of 2015. Since then EBP Building Products have emerged as one of the UK's leading challenger providers of building, roofing and drainage products to the construction industry.

Our broad range of products and flexible service offer, backed up by expert support maximises both cost & efficiency for our customers and helps them grow their business; in addition, we can provide tailored offers that helps them increase profitability & draw in business. We also offer expert guidance from the earliest design stages of a project, right through to on-site support and handover.

Instead of spending time searching for the right products from a myriad of suppliers, working with EBP Building Products enables customers to spend more time focused on their business. We understand distribution and service and are able to offer part, full and mixed loads; customers can also order the quantities they need rather than what manufacturers want to sell them, keeping their businesses lean & mean.

So, the real question is why EBP?

Well, flexible customer service, the experience of time-served Account Managers at the end of the phone, site visits where required, comprehensive stock range, unbeatable value proposition compared with our competitors and competitive pricing are just a few reasons why.

Further examples of our compelling value proposition include:

- We are manufacturers as well as distributors
- Long established business with proven history
- Hassle free to deal with – easy access to time-served & experienced staff
- Like-for-like price match guarantee
- Point of Sale material/literature
- Technical & sales support
- Site visits where required
- Comprehensive range of stock
- Bespoke products – “specials are our speciality”
- Customer own-branding available on some product lines
- Product warranties – up to 100 years in some cases
- Product training courses
- Speedy shipping as standard – next day & timed deliveries are also available
- We can set up credit accounts as well as accepting payment electronically and by most major credit cards
- Supplier members to NMBS and preferred suppliers to major merchant buying groups
- Reward scheme for referrals and first-time buyers
♥ 2 ♀ LOVE2SHOP
- Incentives for existing customers to encourage growth & reward excellence
